

ramadan ibadah tracker

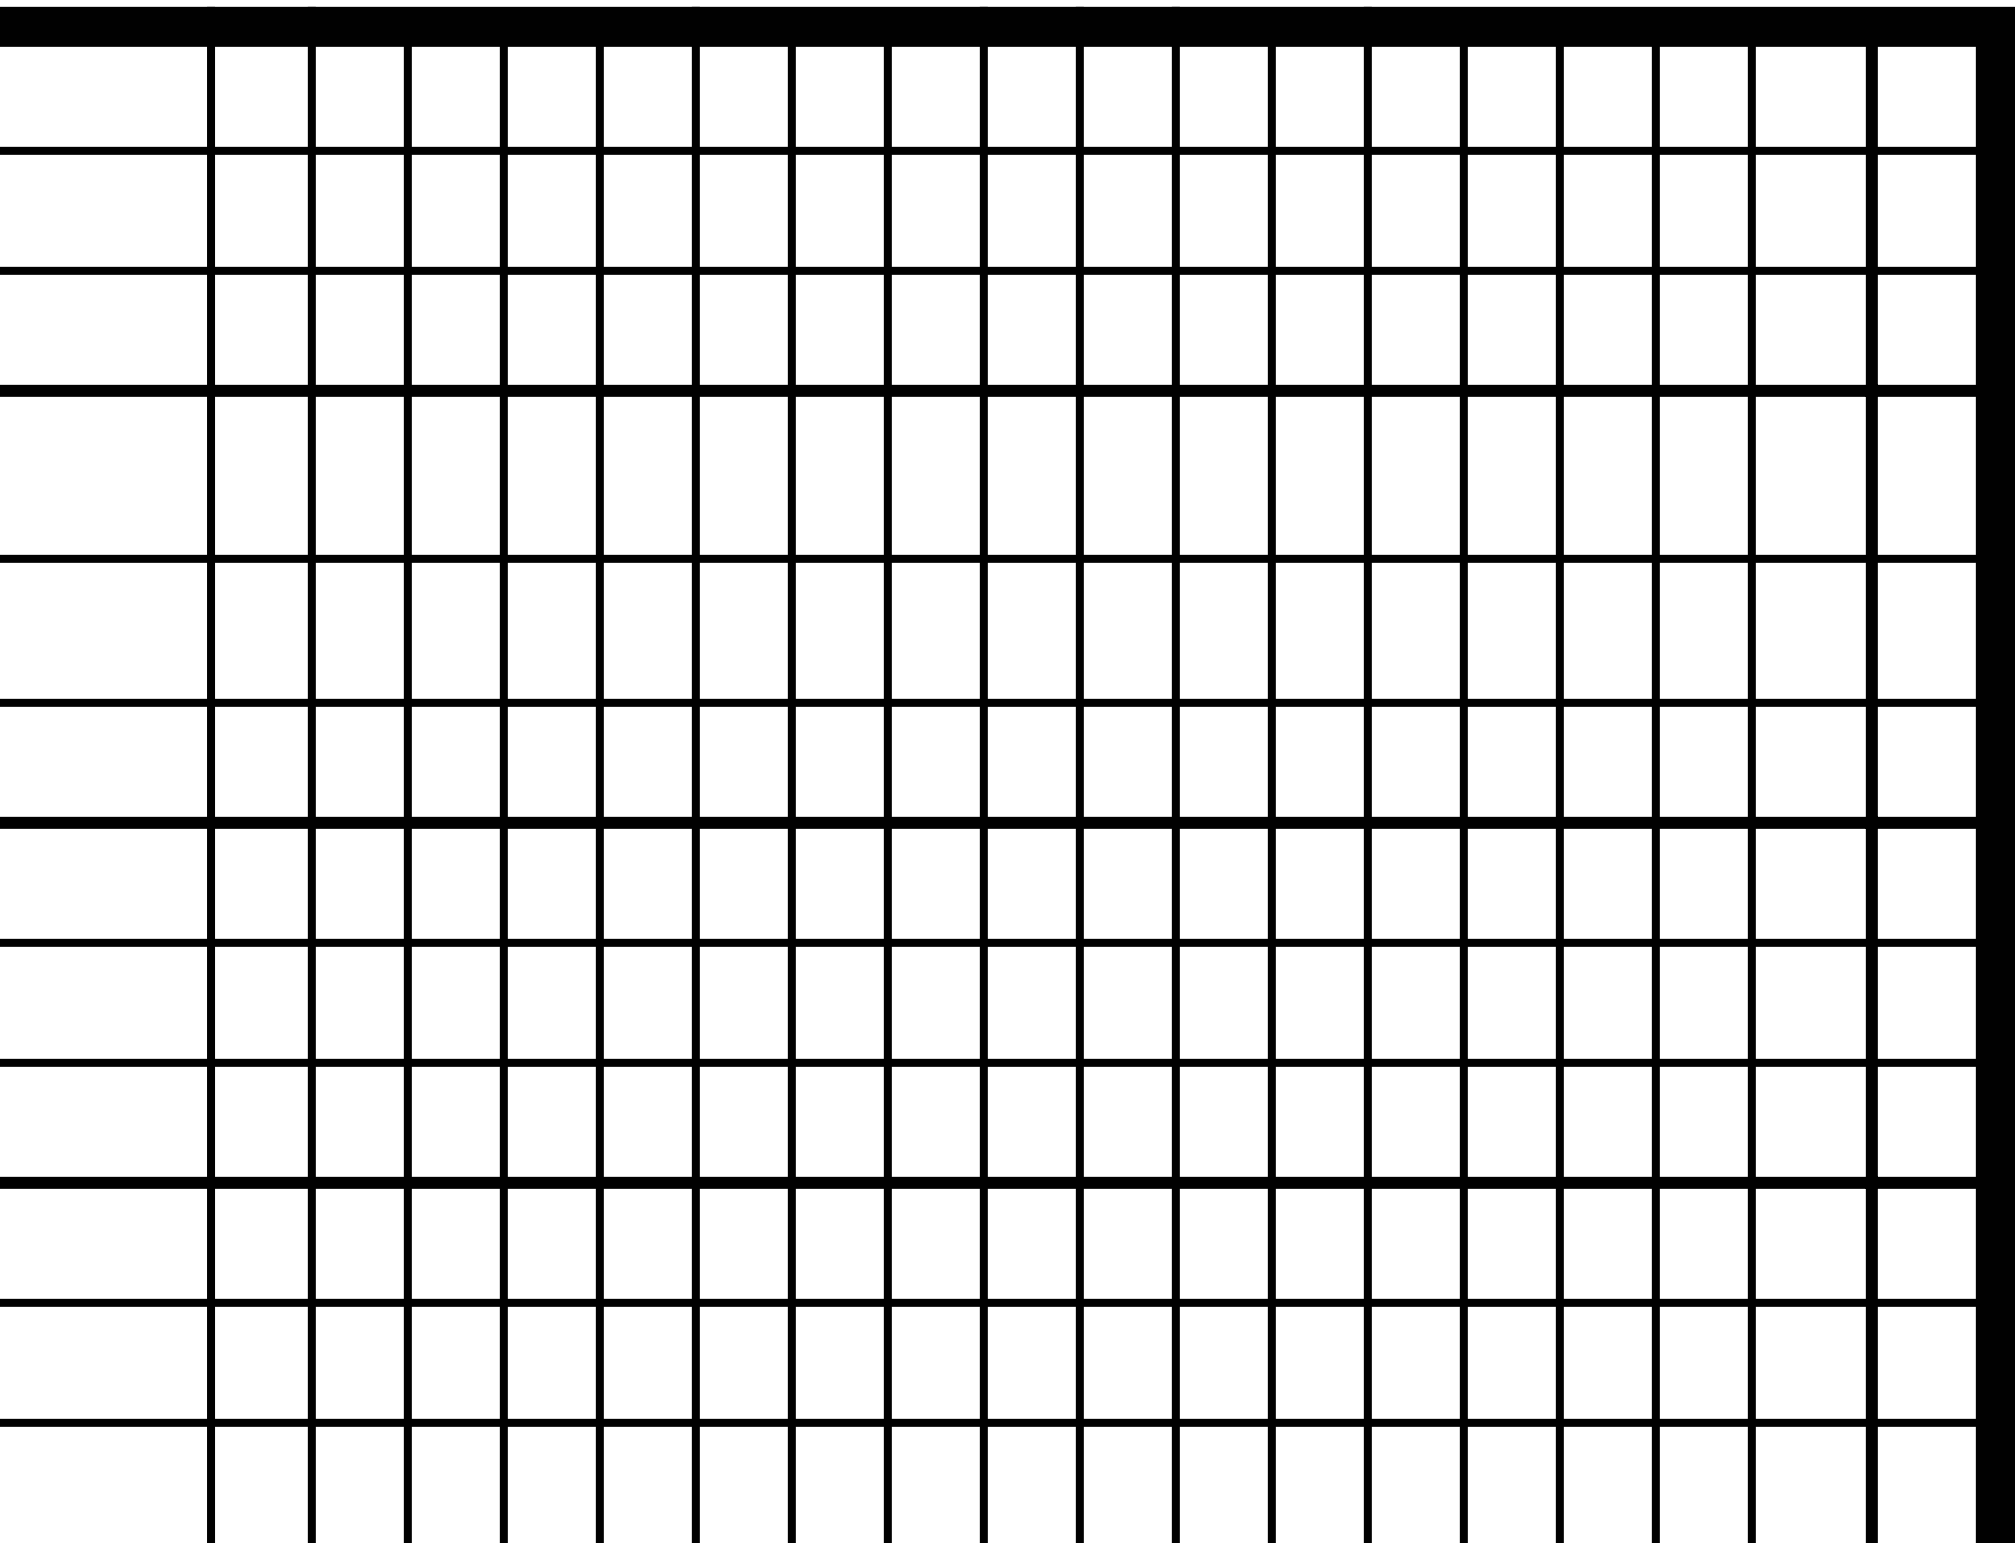

Instructions:

Print on cardstock & match pages together, then laminate for durability.

This tracker chart is to help your child (ren) focus on worship to Allah during the month of Ramadan in hopes that it will later be natural for them to perform these actions every Ramadan and outside of Ramadan, insha Allah.

Write child's name or assign them a number and place it under each action where it says "child's #" on the chart. They can then check each action for each day by coloring in that square or placing an "x" in that box, insha Allah.
